

## We Help Families Like Yours

The young people we work with usually have complex behavioral health needs. They may also express risky behavior, such as hurting themselves, skipping school, running away, or using drugs and alcohol.

Our goal is to prevent unnecessary placement of youth in restrictive care away from their homes. Life outcomes are better for children who can stay with their families in a way that works for everyone. We connect your child and family to the resources needed to thrive at home.

Choices is a community mental health center that is certified to provide services such as Wraparound and MYPAC. We work with the Mississippi Department of Mental Health, the Mississippi Wraparound Institute, the Mississippi Division of Medicaid, and Families as Allies.
